Two Colour Combination Ideas for Awesome Living Room Decor

NEROLAC

Most modern living rooms follow the standard combination of white and brown or canary yellow, or at the most, blues and greens with their complementing colours. If you want to be different without losing out on style, experiment with some other living room paint combination. We have hand-picked the four most fascinating living room colour schemes that you can incorporate in your space without going wrong!

Pink Pearl

Any shade of precious pink, when paired with sugar-white, looks marvellous. So, opt for an impactful candy-like ambience with the best colour combination for living rooms. Pick a classic hue like Coralle Pink (4575) and colour three walls with it. The fourth wall can be white for a perfect wall colour combination for the living room. Even though some muted pinks might remind you of your grandmother's bathroom from the 1950s, when

Has anyone availed the new Amazon Pay credit card by ICICI? Is it good?

Robin Sharma

An avid reader of credit card usages. 2y

Amazon Pay ICICI credit card is awesome. I know someone who has been using it, and she loves it. But if it is worth it for you depends on your lifestyle. Let me elaborate.

Amazon Pay ICICI credit card is specially designed for Amazon customers. If you are an Amazon Prime member, then you get a 5% cashback on every purchase. If you are a non-prime Amazon member, then the cashback is limited to only 3%.

Moreover, you earn a cashback of 2% at 100+ Amazon Pay partner merchants. This is only if you use Amazon Pay as the payment method. You get a cashback of 1% on every other payment done using Amazon Pay.

Let me ask one question in return, are you an Amazon customer?
